## ABOUT US...

East Lanka Polysack (PVT) LTD established in partnership with USAID to manufacture Woven Polypropylene Bags, Leno Mesh Bags and the LDPE films in the eastern province of Sri Lanka.

The Raw Material (Polypropylene) is sourced from Kingdom of Saudi Arabia (KSA) - SABIC, Tasnee, Aramco and Chevron Phillips Chemicals.

The primary objective of the business is to elevate the livelihood of marginalized communities that are severely affected by the war and Tsunami in Sri Lanka. Company has compassionately employed at least 70% women from marginalized context. The committed workforce includes a cross – section of disadvantaged people including widows, persons with disability, single mothers and youth.

The last 7 years of successful business operation is now being challenged by the Sri Lanka's economic situation and we are aiming for export of our products to overcome the challenge and to assist the country with foreign currency inflow.

Therefore, we require generosity by purchasing the bags from us to ensure the success of the business operation in long run and to continue our primary objectives.
